

## MOTOR CITY CAFE

### Welcome to Sunshine's!

Sunshine and Motor City may not go together in many people's minds but I guess you'd have to hear our family's story to understand the connection. "Sunshine" is Michelle Taylor (or Mom as we call her!). She earned the nickname from her main man, Al (aka Dad), when they greeted each other over the phone for the first time on their blind date. Married now since 1974 and with over 25 years of that in business together, they were very excited to move their catering company, Special Moments, into this great facility. In their minds, the space out front just begged to be a café where neighboring businesses could stop in for lunch.

Relocated from Michigan ...Al and Michelle thought that this cute little space reminded them of places back home. As they reminisced, their mouths began to water with memories of Boston Coolers, Better Made Chips and Coney Island's. With a little research and some calls to friends back home, they decided to bring Motor City to Arizona. In January of 2012, Special Moments Catering launched it's second restaurant, Sunshine's Motor City Café. We're pretty sure that when you walk through these doors, our parents will make you feel like family! Thanks for coming to see us and please come back again soon!

### OF COURSE...THERE'S ALWAYS THE CONEY DOG!

Just like they do in Detroit, we have the famous Vienna hot dogs (the ones that snap!) and a delicious chili sauce inspired by Lafayette's recipe and made fresh by Sunshine's Main Man, Al. Topped with sweet onions and mustard and nestled in a warm bun, you'll be asking for a second one before you've finished the first!
